

EastGRIP International Spring Seminar Series (EISSS) 2022

The EastGRIP International Spring Seminar Series (EISSS) 2022 will be taking place from March to April. We will have weekly talks about EastGRIP, NEGIS, and Greenland, during the spring.

Time: Every Tuesday 15:00 – 16:00 Copenhagen time

Link: <https://ucph-ku.zoom.us/j/63612701580> (code: EGRIP)

Each talk will be a 15-20 min talk, leaving 10 min for questions.

Date	Speaker	Topic
March 1st 15 CET	Giulia Sinnl Paul Bons	GICC21 time scale Dating fold growth in ice sheets
March 8th 17 CET	Joe McConnell Feiyue Wang	The TUNU project Mercury in ice cores
March 15th 15 CET	Carlo Barbante Pavel Talalay	BEOI field season 2021/2022 Alternative approaches of subglacial lake exploration with RECAS thermal sonde
March 22nd 16 CET	Christo Buizert William Colgan	EGRIP d ¹⁵ N measurements + gas time scale Design and performance of the HotRod melt-tip ice-sheet drill
March 29th 15 CEST	Fabien Gillet-Chaulet Steven Franke	3D Elmer inversion of NEGIS Old NEGIS ice stream
April 5th 15 CEST	Julien Westhoff Roïy Sayag	Close-off depth method Ice stream flow

Please note that the seminars on March 8th + 22nd will be at 16/17 CET, which is 8:00 in Reno and Oregon, US. For convenience of the speakers.

If you want to present your work to the community, please send Iben an email and we will find an open spot.

The zoom room will be open 15 min before the seminars. Of course also afterwards for scientific and social gatherings.

Looking forward to seeing and hearing from all of you soon.

All the best,
Iben
